

MULTIPURPOSE PREVENTION TECHNOLOGIES (MPTS) FOR GIRLS AND WOMEN

Chairs:

Anke Hemmerling (CAMI/UCSF)
& Manju Chatani (AVAC)

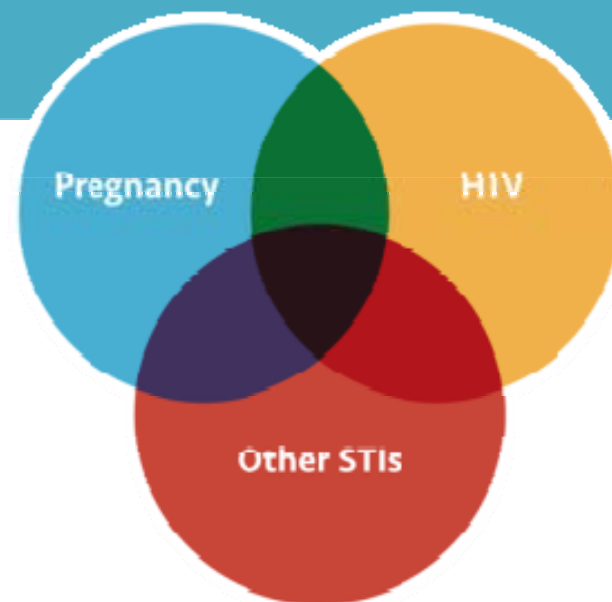

30 MAY, 2013

Women Deliver, Kuala Lumpur, Malaysia

What are Multipurpose Prevention Technologies (MPTs)?

A single product, configured for at least two SRH prevention indications:

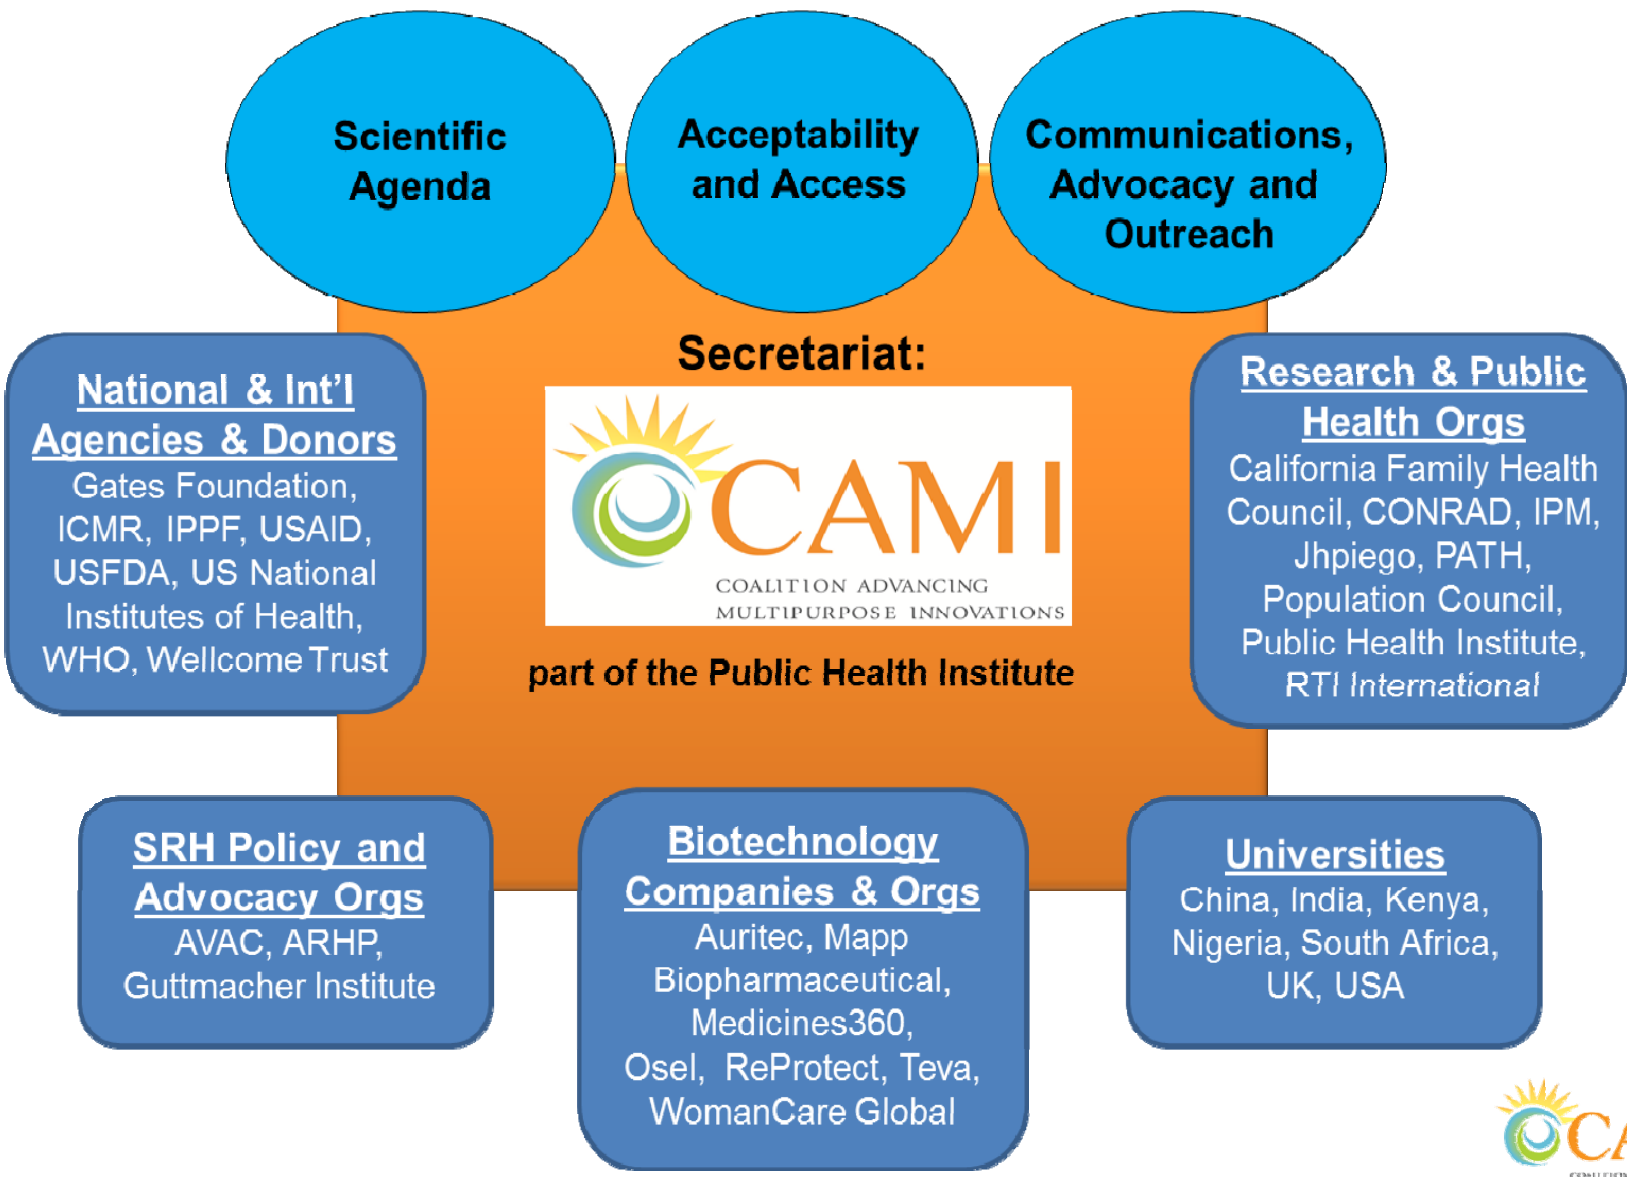

- ✓ **Unintended pregnancy**
- ✓ **HIV**
- ✓ **Other STIs**

WHY MPTs?

- ❑ Greater *efficiency* in terms of cost, access and delivery of SRH prevention products
- ❑ Capitalize on the demand in populations using one product type to achieve uptake and use of a second “product”

Initiative for Multipurpose Prevention Technologies (IMPT)

Session Format

What are MPTs and why do we need them? What's available now and on the horizon.

Nomita Chandhiok (ICMR)

Microbicides, where are we today?

Zeda Rosenberg (IPM)

Aligning investments in MPT Research & Development.

Judy Manning (USAID)

What do these technologies mean for women living with HIV?

Georgina Caswell (GNP+)

Panel Discussion
